

# Anything

Damage

If you could have something  
Anything that you want it  
Tell me, girl, what would it be  
There is no limits to do  
Anything that you want to  
You could have everything you need

I've been waiting all my life  
To have someone to talk to  
So, tell me now, could it be  
That I found someone for me

When I see your smile  
I'm walkin' on a crowd  
I would do anything to have you near me  
When I see your face  
It makes my heart race  
I would do anything to have you near me, baby

Give me some time  
To tell you what's on my mind  
I have so many things that I want to say  
I wanna see you, be a part of what you do  
Everywhere, you lighten up my day

You know that I would do anything  
Oh, ooh..., yeah, yeah, oh, yeah...  
Anything, anything  
Girl, I would do anything...
