

## Charge It

## Damage

Caught a dart in the head  
At the age of three  
I saw the light  
And it set my mind free  
Charge it! Credit!  
I need it! Charge it!  
I charge my cigarettes  
I charge my beer  
I charge my rent  
I charge my beer  
The payment on the doctor  
Can always be delayed  
I know that I'll be dead  
Before that sucker's paid  
Charge it! Credit!  
I need it! Charge it!  
The number on my plastic card  
Is my virility  
I don't have a bulge in front  
But my wallet stands erect  
I've paid for women  
Uglier than you  
Hey, is that a credit card  
Or are you just glad to see me?  
Charge it! Credit!  
I need it! Charge it!  
I charge my cigarettes  
I charge my beer  
I charge my rent  
I charged my dog but it died
