## Love li Love

I love II love I love II love you Nobody can change my mind Your one if a kind I love II love I love II love you

No one loves me better it's true Was not so long ago That I was all alone I had so much doubt in me

I had so many dreams But fear got the best of me Then came you to set me free... rise

So more than you no your the one Who really really changed my life Now whether I win or lose I will never be afraid to try, that's why

I love II love I love II love you Nobody can change my mind Your one of a kind I love II love I love II love you

No one loves me better it's true You taught me how to dream That no goals beyond my reach so now I reach for the sky Love me with honesty

Showed me what the word should mean Now your all I need to get by... rise

So more than you know your the one Who really really changed my life Now whether I win or lose I will never be afraid to try, that's why
