

The Journey

Damage

Come on a journey, A journey of our world
The Damage world
1-9-9-1 is where it all begun
From dreams to real scenes
Setting our minds as one

We strive to achieve, all things we believe
And from the 9 to the 5
We started the adventures of our lives
So now we can't look back

Top ten hits, to a top ten album
Plaque awards, to headline tours
Magazine front covers, still no love from others
It's cool, we remain brothers

From here to south east Asia
To the depths of Australia
We witness love, mad love
Mad hysteria

Good times, bad times, sad times
From train lines to airlines, new rhymes
New heights, new sights, new visions
Music to life, new meanings
This is a journey of ours from the big red 261
