

# New Found Power

## Damageplan

Why have we waited so long?  
Suppressing the power inside  
Tear away all that was wrong  
Something too massive to hide

It's time to rip the chain from your neck  
Let go the past as you purge  
Free now from everything weighing you down  
Open the floodgates and surge

With new found power  
New found power  
New found power  
New found power

Cleansing yourself of the past  
Learn from mistakes and move on  
Conquering new ground at last  
Unite and become twice as strong

It's time to rip the chain from your neck  
Let go the past as you purge  
Free now from everything weighing you down  
Open the floodgates and surge

With new found power  
New found power  
New found power  
New found power

Nothing ventured, nothing gained  
Hope was all that kept me sane  
Rise above and prove myself  
I'll survive without your help  
Shut you out my strength comes from within

New found power  
New found power  
New found power  
New found power

New found power  
New found power  
New found power  
New found power
