

# Moment Just Like This

Dami Im

You're looking straight into my eyes,  
I see you standing over there  
I take it step by step into your arms,  
Like I'm under a spell!  
And when the angels start to sing  
To let our fairytale begin  
We danced together all night long  
Like time is standing still

I don't want to lose it now,  
I don't want this world to stop right now  
All my life I've been waiting for  
A moment just like this!  
Whoaaa-oooh oh oh ooh oh  
Whoaaa-oooh oh oh ooh oh  
All my life I've been waiting for  
A moment just like this!

Don't wake me up if I'm dreaming,  
Don't ever take it away  
Wanna lose myself to every second of this,  
And I pray that it never ends!  
Just let the crowds keep on un-folding  
Let all the sparks light up the sky  
And let's pretend like there's no tomorrow,  
Surrender to this night!

I don't want to lose it now,  
I don't want this world to stop right now  
All my life I've been waiting for  
A moment just like this!  
Whoaaa-oooh oh oh ooh oh  
Whoaaa-oooh oh oh ooh oh  
All my life I've been waiting for  
A moment just like this!

Uuuh uh uh, a moment just like this  
Uuuh uh uh, a moment just like this  
Ye-yeeee yeah!

And for as long as I remember  
My heart's been beating for this day,  
I think I'm nothing but love, sweet love sweet love  
Flowing through my veins!

I don't want to lose it now,  
I don't want this world to stop right now  
All my life I've been waiting for  
A moment just like this!  
Whoaaa-oooh oh oh ooh oh  
Whoaaa-oooh oh oh ooh oh  
All my life I've been waiting for  
A moment just like this!
