

# Smile

Dami Im

You're out of touch, in overtime  
You're running in, you're running  
Better left behind  
You've dropped the ball to catch it with  
And is it all there really is  
You're thinking but you're thinking  
'Cause you know the best all things in life are free  
And it's all you need

You gotta live your life  
You gotta treat you right  
You gotta give into the great thing appetite  
You gotta shake it up,  
You gotta hold it down  
You gotta do all the things that  
Make you smile, make you smile  
With the fun, but it is that really makes you happy  
Yeah let's say that  
Let the world be a world that you fill with smile

You're beautiful and evergreen  
You're dancing on high hopes and you got big dreams  
So let them shine we'll light it up

'Cause now's the time to find your voice  
Wear your heart out on your sleeve  
'Cause you know the best all things in life are free  
And it's all you need

You gotta live your life  
You gotta treat you right  
You gotta give into the great thing appetite  
You gotta shake it up,  
You gotta hold it down  
You gotta do all the things that  
Make you smile, make you smile  
With the fun, but it is that really makes you happy  
Yeah let's say that  
Let the world be a world that you fill with smile

So live for a night we won't forget  
Live for the memories we haven't made yet  
Turn up the love fall into it  
Live for the memories we haven't made yet  
This is our life no regrets

You gotta live your life  
You gotta treat you right  
You gotta give into the great thing appetite  
You gotta shake it up,  
You gotta hold it down  
You gotta do all the things that  
Make you smile, make you smile  
With the fun, but it is that really makes you happy  
Yeah let's say that  
Let the world be a world that you fill with smile
