## **Cloudy Shoes**

## **Damien Jurado**

I wish that I could float Float up from the ground I will never know What that's like

You have a way about you I wish that I had Thought it was impossible To live and love like you

Funny how we all can change If we just try to Thought it was impossible To live and love like you

One day you will be taller Taller than the sky Until that day you will be Here with us below

Magic will do what magic does Living in your eyes Do you think someday soon You will have the time?

I could use another hand To help pull me through Someday these hospital stays Get the best of me

Trying to fix my mind Still trying to fix my mind Trying to work it out I'm still trying to fix my mind

Still trying to fix my mind I'm still trying to fix my mind
