

Dancing

Damien Jurado

Smoke that cigarette and down another drink
Call your other in-crowd friends instead of calling me

And it's who's got what and what can I take
Take what you got just try to make a fast break
It's who's got what and what can I take
Well I'll take what you got just try to make a fast break

Just sit down and go dancing
Just sit down

Smoke that cigarette and down another drink on me
Well you've got better things to be done
Than to be seen with me

Well it's who's got what and what can I take
Take what you got just try to make a fast break
It's who's got what and what can I take
Well I'll take what you got just try to make a fast break

Just sit down, there's no dancing

Well it's who's got what and what can I take
Take what you got just try to make a fast break
It's who's got what and what can I take
Well I'll take what you got just try to make a fast break

Just sit down, there's no dancing
Just sit down
