

# Halo Friendly

Damien Jurado

I'm standing on the top of the moon, looking down at you  
You're tiny, you're ...  
I'm standing on the top of the star, wondering where you are  
You're driving in your car  
I'm standing on the top of the world, looking at a girl  
Who doesn't notice me

I'm halo friendly  
I'm halo friendly

I'm standing on the top of the world, looking at the girl  
Who will someday notice me  
I'm standing on the top of a star, you're standing in the yard  
You're lonely just like me  
I'm standing on the top of the moon, longing to be with you  
If only you had wings

I'm halo friendly  
I'm halo friendly

I'm halo friendly  
I'm halo friendly

Standing at the top of the world
