

# Museum of Flight

Damien Jurado

Falling to the ground  
I was anxious to be found  
You can always go home  
To the safety of your cloud

Don't let go  
I need you to hang around  
I am so broke  
And foolishly in love

I turned around to love revealing  
What did I learn, it's not that easy  
When you get burned and go on burning loud

Falling into sound  
Is a less defeating path  
One day we will go home  
To the safety of our clouds

Don't let go  
I need you to hang around  
I'm so broke  
And foolishly in love

I turned around, my life was changing  
What did I learn, it's not that easy  
When you get burned and go on burning light

Don't let go  
I need you to hang around  
I'm so broke  
And foolishly in love

I turned around, my life was changing  
What did I learn, it's not that easy  
When you get burned and go on burning light
