

Omaha

Damien Jurado

The cowboy of Omaha drives with his three kids
To the house where they live, where you been

This country will know us by name
This country will know us by name

We've been out driving and seeing the sights
The land of Nebraska is beautiful at night

This country will know us by name
This country will know us by name

Our car was the ship and daddy the captain
He let us steer and pretend we were driving

This country will know us by name
This country will know us by name
This country will know me by name
