

The Joke Is Over

Damien Jurado

People laugh and pointed at you
They make those jokes and laughing about
Oh, I never did those things

They will make fun of you but not me
No I never got it at all

Laughing with you
Not at you

People laugh and pointed at you
They make those jokes and laughing about
Oh, I never did those things

They will make fun of you but not me
No I never got the joke

Laughing with you
Not at you

They will make fun of you but not me

Laughing with you
Not at you
