```
i can't believe i let you fool me
i've been here too long
i can't believe i let you fool me
i've been here too long
i step aside then i heard you're driving her to all our places
so take your pride take your keys and ride and maybe now you'll face it
you're never getting mine
cause you think love is easy all the time
you fall in love with a girl like me
and you had to walk
you fall in love with a girl like me
and you had to walk
i stepped inside where i almost died when i heard oasis
you got it hard and you waste her time but baby all you'll face is
you're never getting mine
cause you think love is easy all the time
out in falling rain yesterday is falling faster
i'm on the out bound train and trying to avoid their laughter
cause even the good things change
i want to ask you when but nevermind
you're never getting mine
cause you think love is easy all the time
```
