

# On Your Speakers

Damone

Promise me that you'll be okay  
Keep in touch if miles away  
I'm hangin' in the way that I know how

Take good care and I'll see you soon  
Ring you up this afternoon  
I'm cool with how things have to be right now

You'll hear me on your speakers  
Everywhere you go  
Wearing your worn out sneakers  
Kickin' down the road  
Just take this song until I see you at the show

Whoa, I'm sending you a message  
Whoa, you're gonna be mine  
Whoa, don't mean to be obsessive  
Everything's fine

Me and Mike went out last night  
Party crashed and watched the fights  
In front of every open bar room door

Things just aren't the same 'round here  
Like they were at this time last year  
I guess I don't feel welcome anymore

You'll hear me on your speakers  
Everywhere you go  
Wearing your worn out sneakers  
Kickin' down the road  
Just take this song until I see you at the show

Whoa, I'm sending you a message  
Whoa, you're gonna be mine  
Whoa, don't mean to be obsessive  
Every thing's fine, just fine

Just take this song until I see you at the show

Whoa, I'm sending you a message  
Whoa, you're gonna be mine  
Whoa, don't mean to be obsessive  
Every thing's fine

Whoa, I'm sending you a message  
Whoa, you're gonna be mine  
Whoa, don't mean to be obsessive  
Every thing's fine, just fine
