Alone

Dan Black

Some are young
Some are dumb
Some wanna die

They fill the streets
Broken beats
Lonely eyes

But something seems to beat in me
I just don't seem the same

I was dreaming when I saw you
I was dreaming on the avenue
I was dreaming when the bomb blew
Because this endless desire won't leave me alone

It will not leave me alone
It will not leave me alone

Some are young
Some are numb
Some wanna hide

I see beats and bins
Mannequins
Lonely I

Because something seems to beat in me
I just don't seem the same

I was dreaming when I saw you
I was dreaming on the avenue
I was dreaming when the bomb blew
Because this endless desire won't leave me alone

It will not leave me alone
It will not leave me alone

It will not leave me alone
It will not leave me alone

Are you al oh oh oh oh ne, alone oh oh one
Are you al oh oh oh oh ne, alone oh oh one
Are you al oh oh oh oh ne, alone oh oh one
Are you al oh oh oh oh ne, alone oh oh one

I was dreaming when I saw you
I was dreaming on the avenue
I was dreaming when the bomb blew
Because this endless desire won't leave me alone

It will not leave me alone
It will not leave me alone
It will not leave me alone
Alone

It will not leave me alone

Alone
