Sympathy comes out in the night Sympathy comes out of fright Oh, when it's cold outside Showing your lonely side It's always like this

But it's summer now and it's warm outside Take a bite and you're distracted For then is a little while That always makes you smile It's always like this

Step on me, come step in time Bring it in to the ringing shine Your heart, it feels so close Like the ground beneath my toes

```
It's always,it's always
It's always,it's always like this
It's always,it's always
It's always,it's always like this

It's always,it's always
```
