

Maway

Dan Croll

You moved here from another town, your mother said she let you
down

Your father's ran away to sea and left you here to live by me

Maybe I should ring, maybe I should call you my girl

Baby come my way, baby come my way, come my way

I never thought your family would, but now you're walking throu
gh my neighbourhood

Tired of walking streets alone, you don't know where to call yo
ur home

Well maybe I should call on you, I'll let you do what you want
to do

Escape for a little while, and we can walk 'cause I like your s
tyle

Maybe I should ring, maybe I should call you my girl

Baby come my way, baby come my way, come my way

Baby come my way, baby come my way, come my way

I never thought I'd catch your eye, but now it seems you never
want to leave my side

Your family wants you back from me, but I had your promise that
you'd never want to leave

So maybe

Maybe I should ring, maybe I should call you my girl

Baby come my way, baby come my way, come my way

Maybe I should ring, maybe I should call you my girl

Baby come my way, baby come my way, come my way

Baby come my way, baby come my way, come my way

Baby come my way, baby come my way, come my way

Baby come my way, baby come my way, come my way
