Only Ghost

I lost my way I lost my way home Stray to far and wound up at your door I lost my way I lost my way home Stray to far and wound up at the coast

I love the wind And I love the rain I love the coast But I've lost my only ghost You're, You're my only ghost

I love the wind And I love the rain I love the coast But I've lost my only ghost You're, You're my only ghost

You call my name You call my name out Took the words I had right out my mouth You call my name You call my name out Took my hand and showed me The way south

You're, You're my only ghost

I love the wind And I love the rain I love the coast But I've lost my only ghost You're, You're my only ghost Dan Croll
