

Morning Sky

Dan Fogelberg

You and I were lovers all along
We had a good thing going strong
And never doubted.
Lately, I feel changes comin' on
I know that I will soon be gone
And you don't even want
To talk about it.

Oh, and it makes me stop and
Wonder why
People give their hearts and turn
around and say goodbye
If there's something on your mind
You better say it while there's time
'Cause I'm leavin' when I see that
Morning sky.

Oh, how did we ever come to this?
There's nothing for me in your kisses anymore.
Late nights in the kitchen
I'm pretending I still care
But we both know there's nothing there
And you just keep on starin'
At the door.

Oh, and it makes me stop and
Wonder why
People give their hearts and turn
around and say goodbye
If there's something on your mind
You better say it while there's time
'Cause I'm leavin' when I see that
Morning sky.

You and I were lovers all along
We had a good thing going strong
And never doubted.
Lately, I feel changes comin' on
I know that I will soon be gone
And you don't even want
To talk about it.

Oh, and it makes me stop and
Wonder why
People give their hearts and turn
around and say goodbye
If there's something on your mind
You better say it while there's time
'Cause I'm leavin' when I see that
Morning sky.
See that morning sky.
