The Age of Simulation

Dan Hartman

You're an automatic, don't take any chances
There is no unknown
With endless sensation, the miracle of science
Right into your home

Color your eyes, color your food
Modulate your voice to change your mood
This thing is real, this thing is fake
Is it evolution, or a big mistake?

Everything will come on up with other ways
Don't change my face, or take my place
What can I say?
It isn't real, or it's a perfect imitation
Don't think about it, get up

It's the age of simulation
Better get with it, or end up at the back of the line
Everybody get up
It's the age of simulation
Yes you gotta try it, no you can't deny it
We're victims of the age, the age of simulation

Keep yourself guarded, don't take any chances
With true emotion
Press one button for desire
Another for devotion

No limitations, I'm so complete
Well this ain't the drama, but it keeps the beat
This ain't sugar but it's twice as sweet

Everything is walking through this modern world
I'll change my face, I'll take my place
What can I say?
Don't think about it, get up

It's the age of simulation
Better get with it, or end up at the back of the line
Everybody get up
It's the age of simulation
Yes you gotta try it, (no), you can't deny it
We're victims of the age, the age of simulation

You got your life in the blender
Your feeling so secure
You think you know what's going on
But don't be so sure

(Ah-ah-ah, ah-ah-ah, ah-ah-ah)
(Simulate, simulate) simulate
Shake, shake, shake, simulate
(Simulate)

Everything is walking through this modern world
I'll change my face, I'll take my place
What can I say?

Don't think about it, get up

It's the age of simulation
You better get with it, or end up in the back of the line
Everybody get up
It's the age of simulation
Yes you gotta try it, no you can't deny it
We're victims of the age, the age of simulation

(Get up) get up
It's the age of simulation
Everybody get up (simulate)
We're in the age of simulation (simulate, simulate)
Get up (simulate), everybody shake
(Simulate, simulate)
(Simulate, simulate)
(Simulate, simulate)
(Simulate, simulate)
(Simulate, simulate)

(Simulate, simulate)
(Simulate, simulate)
(Simulate, simulate)
(Simulate, simulate)
(Simulate, simulate)
(Simulate, simulate)
(Simulate, simulate)
(Simulate, simulate)

(Simulate, simulate)
(Simulate, simulate)
(Simulate, simulate)
