Seems there's always some tragedy
That's tearing at our precious world
Wish sometimes we could just lighten up
Let's take a look around us

Turn off the TV, oh, let's open our eyes Look at the stars in the sky

Carmelia, let's dance away the night together Let's dance until this crazy world disappears Girl, in the morning we will still be here Carmelia, let's celebrate our lives forever Let's dance until the stars tumble from the sky

There's music pounding from the radio Just lean your body into mine Girl, you take me to a better place There's no one else, just you and I

Hold on to me, I'll hold on to you Tonight we've got nothing to prove

Carmelia, let's dance away the night together Let's dance until this crazy world disappears Girl, in the morning we will still be here Carmelia, let's celebrate our lives forever Let's dance until the stars tumble from the sky

Carmelia, let's dance away the night together Let's dance until this crazy world disappears When the morning we'll still be here Carmelia, let's celebrate our lives forever Let's dance until the stars tumble from the sky

Carmelia, let's dance away the night together Carmelia, let's celebrate our lives forever
