

# I Dream I Saw Your Face Last Night

Dan Hill

As I gaze into the sky  
There's a shooting star that's falling  
As it dwindles into floating dust  
My name I hear it calling  
Oh God I'd love to be free  
But there's something wrong, you see  
I can't make it  
Just with me  
I'm lonely...

Well I dreamt I saw your face last night  
Just an image in the long  
While falling through space I felt  
Just you and me  
And god  
I just don't know if I can believe in you  
The dreamer deep inside me  
Surely wants me to  
If only dreams come true

At times I get this feeling  
That there's more to my life then greets my eyes  
Just a crazy kind of feeling  
Then I take a look around  
This world's falling down  
Only a clown could believe ...believe

Well everyone's had hopes I guess  
On how the world should be  
Everyone's had dreams that just elude reality

Oh and God your name's been used  
For politics for power  
God your name's been used  
For all the love that towers  
But has yet to fall - upon us all  
Well I dreamt I saw your face last night...
