

# Factory Town

Dan Seals

Billy came by this morning  
And we could tell there was something wrong  
He said the union called him  
We stay together and we'll be strong  
We'll be strong

Gonna shut down this factory town  
There ain't gonna be no work around  
They're gonna shut down this factory town  
And I don't know how long we can hold on  
Before it's gone

Now I don't know the problems  
I just work hard on the line  
And I don't know the owner  
The whistle blows at quitting time  
And now I find

Gonna shut down this factory town  
There ain't gonna be no work around  
They're gonna shut down this factory town  
And I don't know how long, we can hold on

They say it's too late to talk it over (yeah)  
That's the word out on the street  
Now I don't have any answers  
But if we don't work, we don't eat

They're gonna shut down this factory town  
There ain't gonna be no work around  
They're gonna shut down this factory town  
And I don't know how long, we can hold on

They're gonna shut down  
They're gonna shut down this factory town  
And I don't know how long, we can hold on
