

Falling In Love Again By Don Williams

Dan Seals

love be gentle, love kind
As i give this heart of mine
To a new love, i hope will end
It seems like only yesterday
Love was here and went the way
I shouldn't love again
But now iam falling in

CHORUS: falling in, love again
i have fallen out but there no doubt
iam falling in love again.

I know that love won't always last
When you fall in love too fast
I should know better, but here i go again
Love be strong, love be true
oh, what else can i do
Love is calling and i know iam falling in

Chorus till fade
