

# You Really Go For The Heart

Dan Seals

I saw you, and right then and there I knew  
I didn't have a prayer  
You made the move like a thief in the night, so smooth  
You had the time just right

Oh, I fell fast and hard  
Once you make your mind up

You really go for the heart  
I couldn't help but love you, babe  
You take the feeling all the way  
That's the way you are  
Do you want somebody?  
You really go for the heart  
You really go for the heart

Burnin' eyes, so tenderly hypnotized  
When you look at me, hold me close  
Now I'm a part of you, heaven knows  
That your aim was true

'Cause I fell fast and hard  
Once you make your mind up

You really go for the heart  
I couldn't help but love you, babe  
You take the feeling all the way  
That's the way you are  
Do you want somebody?  
You really go for the heart

You really go for the heart  
I couldn't help but love you, babe  
You take the feeling all the way  
That's the way you are  
Do you want somebody?

You really go for the heart  
I couldn't help but love you, babe  
You take the feeling all the way  
That's the way you are  
Do you want somebody?

You really go for the heart  
I couldn't help but love you, babe  
You take the feeling all the way  
That's the way you are  
Do you want somebody?
