

# No Such Thing

Dan + Shay

Too many people in this bar  
I can't hear myself think over the guitar  
I can tell that you wanna get out of here and disappear, don't ya, baby?  
Too many lights on in the street  
I can see the way that you're looking at me  
And the way you're slipping off your Jimmy Choo's, like you wanted to since we got here  
Now, we're driving down the highway, pulling into my place  
Got your hand over my knee  
Now that we're alone  
I'm gonna let you know everything you mean to me

There's no such thing as too much money  
'Cause if I had it all I would spend it on you, honey  
Time on your hands baby I can take it off ya, let me take it off ya  
'Cause I'm love drunk  
Sipping on your kiss a little too much, and I can't get enough  
Like too much shine in a diamond ring, there's no such thing  
There ain't no such thing  
There ain't no such thing  
There ain't no such thing, yeah

And just in case you didn't know  
There ain't a second that I don't want to hold your body on my body  
You know it drives me crazy, don't ya, baby?

There's no such thing as too much money  
'Cause if I had it all I would spend it on you, honey  
Time on your hands baby I can take it off ya, let me take it off ya  
'Cause I'm love drunk  
Sipping on your kiss a little too much, and I can't get enough  
Like too much shine in a diamond ring, there's no such thing  
There ain't no such thing (hey)  
There ain't no such thing (hey)  
There ain't no such thing, yeah, baby

There's no such thing  
As too many stars in the sky  
Too many hours in the night  
With your body on my body, come on, baby

There's no such thing as too much money  
'Cause if I had it all I would spend it on you, honey  
Time on your hands, baby, I can take it off ya, let me take it off ya  
'Cause I'm love drunk  
Sipping on your kiss a little too much, and I can't get enough  
Like too much shine in a diamond ring, there's no such thing

There ain't no such thing  
There ain't no such thing  
There ain't no such thing  
There ain't no such thing  
There ain't no such thing  
There ain't no such thing
