

Sway

Dan + Shay

Come on outside I got something to show ya
The sun is sinkin' and I'm dying to hold ya
There's a summertime southern breeze blowin' in the air tonight
Turn on the stereo, and leave the door open
Let's watch the moon and the fireflies glow in the sky
Forget the day and let it float away baby
Let's lose track of time

And just, sway put your head on my shoulder, let the music come
and take us over
Let me pull you in a little bit closer, baby close your eyes wh
y don't we just
Stay right here in the moment, I wanna feel ya movin' nice and
slow yeah
When there's nothin' words can say, let's dance the night away
and just sway

We don't need a DJ or a dance floor
So leave your high heels there by the back door
'tween you and me we got all that we need
So let me hold ya tight from left to right baby

We can sway put your head on my shoulder, let the music come an
d take us over
Let me pull you in a little bit closer, baby close your eyes wh
y don't we just
Stay right here in the moment, I wanna feel ya movin' nice and
slow yeah
When there's nothin' words can say, let's dance the night away
and just sway, yeah
Just sway, yeah

My hands on your hips, your lips on my lips, kissin' all the wo
rries away
Losin' ourselves, ain't nobody else around here to get in the w
ay
Sway

We can just sway put your head on my shoulder, let the music co
me and take us over
Let me pull you in a little bit closer, baby close your eyes wh
y don't we just
Stay right here in the moment, I wanna feel ya movin' nice and
slow yeah
When there's nothin' words can say, let's dance the night away
and we can just sway, yeah
We can just sway, yeah

Come on outside I got somethin' to show ya
The sun is sinkin' and I'm dyin' to hold ya
Sway
Yeah
