

## Sway

Dan + Shay

Come on outside I got something to show ya  
The sun is sinkin' and I'm dying to hold ya  
There's a summertime southern breeze blowin' in the air tonight  
Turn on the stereo, and leave the door open  
Let's watch the moon and the fireflies glow in the sky  
Forget the day and let it float away baby  
Let's lose track of time

And just, sway put your head on my shoulder, let the music come  
and take us over  
Let me pull you in a little bit closer, baby close your eyes wh  
y don't we just  
Stay right here in the moment, I wanna feel ya movin' nice and  
slow yeah  
When there's nothin' words can say, let's dance the night away  
and just sway

We don't need a DJ or a dance floor  
So leave your high heels there by the back door  
'tween you and me we got all that we need  
So let me hold ya tight from left to right baby

We can sway put your head on my shoulder, let the music come an  
d take us over  
Let me pull you in a little bit closer, baby close your eyes wh  
y don't we just  
Stay right here in the moment, I wanna feel ya movin' nice and  
slow yeah  
When there's nothin' words can say, let's dance the night away  
and just sway, yeah  
Just sway, yeah

My hands on your hips, your lips on my lips, kissin' all the wo  
rries away  
Losin' ourselves, ain't nobody else around here to get in the w  
ay  
Sway

We can just sway put your head on my shoulder, let the music co  
me and take us over  
Let me pull you in a little bit closer, baby close your eyes wh  
y don't we just  
Stay right here in the moment, I wanna feel ya movin' nice and  
slow yeah  
When there's nothin' words can say, let's dance the night away  
and we can just sway, yeah  
We can just sway, yeah

Come on outside I got somethin' to show ya  
The sun is sinkin' and I'm dyin' to hold ya  
Sway  
Yeah
