

# Cry

Dan Wilson

One more long and lonely night  
Left here on my own  
Do you wanna make me wanna cry?  
I lost my baby in the fight  
I don't know where you've gone  
Do you wanna make we wanna cry?

So I lie alone  
And I wonder where you've gone  
And I dream you're mine  
Wide awake

Don't you want to make me feel  
Like I'm a thousand stories high?  
Don't you want to make me feel  
I'll never fail, I'll never die?  
Don't you want to set me free  
We'll override the history  
Turn to find our destiny  
And never turn away

The devil was an angel once  
beautiful like you  
Do you wanna make me wanna cry?  
I don't care how far you fall  
I'll catch you when you do  
Do you wanna make me wanna cry?

So I close my eyes  
Try to hold my head up high  
And I pray my soul  
Not to break

Don't you want to make me feel  
Like I'm a thousand stories high?  
Don't you want to make me feel  
I'll never fail, I'll never die?  
Don't you want to set me free  
We'll override the history  
Turn to find our destiny  
And never turn away

Do you really want to say goodbye?  
Do you want to make me want to cry?

Don't you want to make me feel  
Like I'm a thousand stories high?  
Don't you want to make me feel  
I'll never fail no matter why  
Don't you want to set me free  
We'll override the history  
Turn to find our destiny  
Never turn away from me  
Don't you want to make me feel  
Like I'm a thousand stories high?  
Don't you want to make me feel  
I'll never fail, I'll never die?

Don't you want to set me free  
We'll override the history  
Turn to find our destiny  
And never turn away

Do you really want to say goodbye?  
Do you want to make me want to cry?  
Do you want to make me want to cry?
