

Honey Please

Dan Wilson

Don't tell me so I know
Don't try to fight hold tight
Don't be afraid of what we made love is always right

Oh baby baby baby
Put me in my place
Cos if you're gone then I don't wanna see
Another pretty face
Oh darlin darlin darlin
Try to get away
I'll find a secret place where we can stay

Honey please Honey wait
You're the only one who makes me wanna run away
Honey please I'll reveal
All the love I'm trying so hard to conceal

You're not alone you're gone
When I get free we'll be
Driving away before the day breaks the heart in me

Oh baby baby baby
I'm dying on my own
I wait for you to see me I don't want to live alone
Oh darlin darlin darlin
Meet me on the street
At the time and place where we agreed

Honey please Honey wait You're the only one who makes me wanna
run away
Honey please I'll reveal
All the love I'm trying so hard to conceal

Honey please Honey wait
You're the only one who makes me wanna run away
Honey please I'll reveal
All the love I'm trying so hard
All my love I'm trying so hard
All the love I'm trying so hard to conceal
