

Heat Seeking Ghost Of Sex

Dance Gavin Dance

I'm a horrible shot, I tie a horrible knot
I pushed a bunch of little people over once
Well a rest is best when you stress a test
And you forget all about your aching ass
I'm a horrible shot, I tie a horrible knot
I muck ace a lot, I'm gonna pace the lot
Don't be tardy for my leaky Barbie TV party pee in the park

I can't believe you're better off alone
You stood there stoned
And I can't believe I'm better than you know
I felt the rush of no control
It feels so good and it feels so good
It feels so nice
Girl turn your back cause I'm coming right up on you
Turn your back cause I'm gonna be all up on you

Placing a bet, my odds are you and me zero
Being a vet, I know that you are too fearful
Placing a bet, my odds are you and me zero
We can regret, all the things we could be doing instead

I'm peeling into the house
Gotta run to the basement
Gotta establish a connection before I get impatient
I'm no contortionist man; I'll steal the lips off your eyes
But anyone who really matters got a call from my guy

I can't believe, I can't believe that I can't believe
I can't believe, I can't believe that I've been deceived
See the smoke in my eyes, feel the pain in my lungs now go
See the smoke in my eyes, feel the pain in my lungs now go

Reset this best of four I know
You've been waiting by the telephone I know
But it's not how or why I lie
You think I wanna be a mediocre guy

See the cracks in my skin, feel the ground on my feet now go
See the cracks in my skin, feel the ground on my feet now go
I know, I know a girl that's not gonna get home tonight
I know, I know a girl that's not gonna get home

Heat seeking ghost of sex
Don't pay attention to my mild case of blow Tourette's
What
I probably place a bet, took your missing tooth
There's no people left in line for your kissing booth
I always knew all of the things that you thought you think
Twice times I'll probably tell you that your god's a geek
Point and glide till your ostracized
Then pile patents on my beak cause right now it's innovation week

Innovation, innovation, innovation week

I can't believe you're better off alone
You stood there stoned

And I can't believe I'm better than you know
It feels so good
Girl turn your back cause I'm coming right up on you
Turn your back cause I'm gonna be all up on you

Placing a bet, my odds are you and me zero
Being a vet, I know that you are too fearful
Placing a bet, my odds are you and me zero
We can regret, all the things we could be doing instead
