Truth Hurts

Dance Hall Crashers

Telling me what to do with my life Telling me that I'm no good Telling me that you are the very best.. You're driving me up the wall At one time you were on top You thought you were a hot shot You never thought the ride would stop Now the roller coaster's over Your only pal is your dog Rover So much for your stay at the top

Talking about your lucky big deals Demanding to top the bill Boring, it's all so boring I'm so glad the spotlights gone At one time you were on top You thought you were a hot shot You never thought the ride would stop Now the roller coaster's over Your only pal is your dog Rover So much for your stay at the top

Now that the spotlight is gone Running towards the bandwagon Claiming everything is fine You can't hide from truth At one time you were on top You thought you were a hot shot You never thought the ride would stop Now the roller coaster's over Your only pal is your dog Rover So much for your stay at the top
