

# Captain Bring Me Down

**Danger Danger**

Hello captain bring me down  
I see you've worked your way right through the crowd to me  
I couldn't help but see you fall  
You were the one that had it all  
And now you've come to pay your debts  
So we forgive and you forget

The more you live the more you learn  
Ain't it funny how the tables turn on you

Hello captain bring me down  
Put your feet back on the ground  
Hello captain bring me down

When we were young you were so cool and  
All the kids they thought that you were the one to be  
But playground heroes never fall  
They just drown their youth in alcohol and  
Watch it slowly fade away  
Live to drink another day

You can't make right the things you've wronged  
Your glory days have come and gone away

Hello captain bring me down  
Put your feet back on the ground  
Hello captain bring me down

You wanna leave it all behind you  
But you just won't let it go  
Oh no, oh no

Solo

The more you live the more you learn  
Ain't it funny how the tables turn on you

Hello captain bring me down  
Put your feet back on the ground  
Hello captain bring me down  
Put your feet back on the ground  
Hello captain bring me down

Hello captain bring me down  
I see you've worked your way right through the crowd to me  
I couldn't help but see you fall  
You were the one that had it all  
And now you've come to pay your debts  
So we forgive and you forget.
