

Dead Drunk & Wasted

Danger Danger

I'm a punk and mu junk is a pretty face
Psychotics, beauty queen neurotics
From outer space
You fit the bill, you're the pill
To easy my head
One hit baby that was it
Now I can't get outta bed

You're the reason I still hang around
You get off just watchin' me fall down
I'm tired of fallin' down

Dead Drunk and Wasted
Strung out on your love and I can taste it
One kiss ain't enough no, I can't fake it
Girl I'mall messed up
I've never been so high - I feel like I can fly
I'm pretty wasted

Supersonic, supermodel tonic
That's what I need
Put it on my tab, hop in the cab
And take a ride with me
You're such a blast
'Till I crash and that ain't cool
I'm a weak, baby I'm a freak
'Cos I can't stay away from you

You're the reason I still come around
I should've caught the last bus outta town
But I'm still hangin' 'round

Dead Drunk and Wasted
Strung out on your love and I can taste it
One kiss ain't enough no, I can't fake it
Girl I'mall messed up
I've never been so high - I feel like I can fly
I'm pretty wasted
Strung out on your love and I can taste it
One kiss ain't enough no, I can't fake it
Girl I'mall messed up
I've never been so high - I feel like I can fly
I'm pretty wasted
Dead Drunk and Wasted
