

# Dirty Mind

**Danger Danger**

I got a fever burning in my soul  
The minute you walked in the room I lost control  
I caught your eye but you looked away  
Lets make this easy baby  
What do you say?

You know that I want ya  
But If I cant have ya

The I'll close my eyes  
And just pretended  
That your here with me and we're more than friends  
I can do what I want when I want, anytime  
It's so easy when you've got a dirty mind  
I got a dirty mind.

I got a feeling  
You're gonna make it hard  
If that's how you want it baby  
You can deal the cards

Double the bet  
Hit or stay  
It doesn't matter either way  
I got the upper hand

Ohh yeah  
Hey babe you're such a chair  
I gotta get a grip

So I close my eyes  
And just pretended  
That your here with me and we're more than friends  
I can do what I want when I want, anytime  
It's so easy when you've got a dirty mind

This just isn't fun anymore  
I'm having seconds thought baby now I'm getting bored  
Don't wanna be another notch in your lipstick case  
I'd rather go on alone with you in my head  
Than wake up tomorrow with you in my bed

So I close my eyes  
And just pretended  
That your here with me and we're more than friends  
I can do what I want when I want, anytime  
It's so easy when you've got a dirty mind

Yeah I close my eyes  
And just pretended  
That your here with me and we're more than friends  
I can do what I want when I want, anytime  
It's so easy when you've got a dirty mind
