

Dirty Mind

Danger Danger

I got a fever burning in my soul
The minute you walked in the room I lost control
I caught your eye but you looked away
Lets make this easy baby
What do you say?

You know that I want ya
But If I cant have ya

The I'll close my eyes
And just pretended
That your here with me and we're more than friends
I can do what I want when I want, anytime
It's so easy when you've got a dirty mind
I got a dirty mind.

I got a feeling
You're gonna make it hard
If that's how you want it baby
You can deal the cards

Double the bet
Hit or stay
It doesn't matter either way
I got the upper hand

Ohh yeah
Hey babe you're such a chair
I gotta get a grip

So I close my eyes
And just pretended
That your here with me and we're more than friends
I can do what I want when I want, anytime
It's so easy when you've got a dirty mind

This just isn't fun anymore
I'm having seconds thought baby now I'm getting bored
Don't wanna be another notch in your lipstick case
I'd rather go on alone with you in my head
Than wake up tomorrow with you in my bed

So I close my eyes
And just pretended
That your here with me and we're more than friends
I can do what I want when I want, anytime
It's so easy when you've got a dirty mind

Yeah I close my eyes
And just pretended
That your here with me and we're more than friends
I can do what I want when I want, anytime
It's so easy when you've got a dirty mind
