Get Your St Together**

Danger Danger

Hey, hey, honey
Think you're so funny
Pass yourself off as a queen

Jukebox junkie
Find another flunky
I'm tired of that old scene

Hear! kitty kitty
You're so damn pretty
But your looks ain't gonna last

You booked a first-class ticket To the promised land Buty ou're goin' nowhere fast

Lines on your face Gettin' clearer honey Nites turn to days And they ain't so sunny How big a price, big a price Are ya willin' to pay

You better get your shit together Pull your head out of the sand Get your shit together Do it while you can

Dime store floozie Temper like an uzi Tell me who said life was fair

You're a little bit bolder But that chip on your shoulder Ain't goin' anywhere

Fingers snappin'
Jaw keeps a flappin'
Ya pile it up so high

You got your head buried So far up your ass Wonder why the sun don't shine?

Clock on the wall Keeps a tick-tock-tickin' You're goin' down

But you'll go down kickin' Ain't no prize for a life You've been pissin' away'

You gotta get your shit together Pull your head out of the sand Get your shit together Do it while ya can Get your shit together Stop wastin' all your time Get your shit together Get yo' ass in line

Get your shit Get your shit together Dig!
