

## Live It Up

**Danger Danger**

Well I was born on the wrong side 'a' town  
My momma said "Son, don't let it bring ya down"  
You gotta do whatcha can with the stuff tha ya got  
You gotta push! push! 'Till you get your shot

You work hard from 9-5  
Tax man leaves ya just enuff to survive  
So when you feel like you're under the gun  
That's when it's time to start havin' some fun

Come on, come on  
You gotta live it up  
Come on, come on  
You gotta live it up

When the world starts bringin' ya down  
And you're in so deep you think you'll never get out  
You gotta step back, take a look at yourself  
You ain't gonna find it in a wishing well

You play hard, you play to win  
Sooner or later, you gotta give in  
Cause you don't get nothin' for free  
But here's a little lesson you can take from me

You play hard, you play to win  
Sooner or later, you gotta give in  
Cause you don't get nothin' for free  
But here's a little lesson you can take from me
