

One Step From Paradise

Danger Danger

We live like strangers
Playing for time
Both of us reachching out for something
Hiding our feelings
Afraid what we'll find
Someday I know we'll find the answer
If it takes a little time
If doesn't really matter
Don't throw it all away
'cause we're

One step from paradise
So close but still so far away
One step from paradise
Together we'll find paradise some day
Lost in the shadows
We search for a light
Hoping the candle burns forever

If it takes a little time
If doesn't really matter
don't let it slip away
'cause we're
