

Rock America

Danger Danger

Hey have you heard the news
People on the hill changin' all the rules
The battle's just begun, stand up and fight

Don't be afraid to say what's on your mind, it's OK
Be who you wanna be cause it's your life

We're not the chosen ones but we've got strength in numbers
Get up and make some noise, let 'em here your thunder

Out on the backstreets, I hear a heartbeat
We're gonna rock America
Standin' together forever, now and forever,
We're gonna rock America

They try to put us down
Say we're no good 'cause our music's loud
I guess they just don't forget when they were young

When there was just one king
Elvis was his name and he sure could swing
The Beach Boys had 'em singin' "Fun, Fun, Fun"

They just deny the past and try to plan the future
Don't take it lyin' down, you don't want that, do ya?

We're not the chosen ones but we've got strength in numbers
Get up and make some noise, let 'em here your thunder

Rock On!
