

Rocket To Your Heart

Danger Danger

Are you an alien from outer space?
It's like you fell right from the sky
Cause you're the center of my universe
And I'm a lonely satellite

Now I can't wait for you to be down
The heat is marked and I can't time travel
If there was one thing I could do

I take a rocket to your heart
Faster than the speed of light
Just so you could feel the way I feel tonight
Rocket to your heart
Passed the point of no return
You're my destination or our crash and burn
Rocket to your heart

Are you receiving me?
Transmission clear
It's my signal getting through?
I wanna wrap my arms
Around your world
And hold you till you feel the way I do

No, I can't hang my hopes and dreams
On shooting stars and gravity
There's only one thing I can do

Rocket to your heart
Faster than the speed of light (Rocket to your heart)
Just so you could feel the way I feel tonight
Rocket to your heart
Passed the point of no return
You're my destination or our crash and burn
Crash and Burn!

Can you hear me?
Can you see me?
Can you feel me?
Could you love me?

Rocket to your heart
Faster than the speed of light (Rocket to your heart)
Just so you could feel the way I feel tonight
Rocket to your heart
Passed the point of no return
You're my destination or our crash and burn

Rocket to your heart (To Your Heart)
Just so you could feel the way I feel tonight
Rocket to your heart (To your Heart)
You're my destination
