

Bluebird

Daniel Ash

She is a love
And she is an answer
She picks you up and she will put you down
You didn't know that did you mister
She is here and she is all around
Ohh baby, you walk on the ground

And you know she is heave sent
And you know she's what you're after
You walk around with your head in a cloud
But she knows you're upside down
She knows what's with you mister

And you could be so free tonight
Stretch out your wings and start you flight
Fly up and into the night forever

You could be ohh so free tonight

And when the bluebirds start to sing
Songs of love and everything Just stretch out your
wings and fly away
I'm with you, all the way

Now gone is pain
And gone all its glories
Gone is a life, with all its tiny stories
You could be, ohh so free tonight
Just fly away into that night

Bluebird, sing me a song
Bluebird, sing me a song
Bluebird, sing that song for me
