

# Get Out Of Control

Daniel Ash

And when the moon is big and full  
And look it's made al just for you  
You can't go down down down down  
You can't go down down

And when the adrenalin is rushing high  
and you're reaching for the very sky  
You can't go down down down down  
You can't go down down

Forget you grey life  
Forget you tomorrows  
Get into the bliss  
Get out of control

And no moor shit is going to surround you  
And no more thoughts of heave and hell  
Just the truth the truth  
You just can't resist you  
Get out in the night  
Get out of control

Forget you grey skies  
Forget you tomorrows  
Get into the bliss  
Get out of control

And when the moon is big and full  
And look it's made al just for you  
You can't go down down down down  
You can't go down down

Get out of your grey skies  
Get out of tomorrows  
Get into the bliss  
Get out of control
