

# All Your Attention

Daniel Bedingfield

Don't want you looking at the stars tonight  
I just want your eyes on me  
I wanna be the only thing on your mind  
I'll be all you need

Don't want you talking on the phone, don't go out  
I just want you here with me  
Don't want you spending time alone  
Stay around, I'll be all you need

Can't you see you hold my heart in your hands  
You own me, you own me  
I need you to survive  
I know I'm alive when you hold me  
Hold me

Don't want to share you with the stars in the night  
I only want you to only want me  
Now, then and forever  
I'm even jealous of the sun in your eyes  
I want you looking at me, only me  
I want all your attention

Forgive me if I seem to need you too much  
You illuminate my soul  
Don't think that I could breathe without your touch  
You could never know

When I'm with you I've got nothing to hide  
You know me, you know me  
I need you to survive  
I know I'm alive when you hold me  
Hold me

Don't want to share you with the stars in the night  
I only want you to only want me  
Now, then and forever  
I'm even jealous of the sun in your eyes  
I want you looking at me, only me  
I want all your attention

Can't you see you hold my heart in your hands  
You own me, you own me  
I need you to survive  
I know I'm alive when you hold me  
Hold me

Don't want to share you with the stars  
Don't want the moon to touch your heart  
I only want you to only want me  
Now, then and forever

I'm even jealous of the sun in your eyes  
I want you looking at me, only me  
I want all your attention  
I want you looking at me, only me  
I want all your attention
