

## Circus Man

Daniel Johnston

If I was a circus man  
Then I'd be a circus man  
Only you could understand  
All my life ahead of me  
That's the way it ought to be  
Circus take me away  
Yonder where I've been again  
Then I'll be back again  
Be a brand new day

See the girlie on TV  
Wonder if she could see me  
By the funny magazines of talk  
It's a secret part of me, secret identity  
Love to love my honey all night long  
Take a walk around the block  
See the future of the clock  
No good in forgetting

If I was a circus man  
Only you would understand  
There's a story there to tell  
See your brother burn in hell
