

Don't Let The Sun Go Down On Your Grievances

Daniel Johnston

Don't let the sun go down on your grievances
Respect love of the heart over lust of the flesh
Do yourself a favor: become your own savior
And don't let the sun go down on your grievances

And when you wake up in the morning
You'll have a brand new feeling
And you'll find yourself healing
So don't let the sun go down on your grievances

And yet if you find yourself in the dark
And you're left holding the bag
Then take care of it right away
And don't let the sun go down on your grievances again

Sometimes you might want to give up
But keep that chin up
Cause you're gonna find
You're gonna find

Sometimes you might be alone
But don't feel lonely
Cause you're gonna find
You're gonna find

And
Don't let the sun go down on your grievances
Start each day with a clean slate
You'll feel better if you can shake off all that hate
And don't forget to forgive and forget
Don't let the sun go down on your grievances

Don't let the sun go down on your grievances everybody!
Respect love of the heart over lust of the flesh
Sing it!
Do yourself a favor: become your own savior
And don't let the sun go down on your grievances
