

# Dream Scream

Daniel Johnston

Having dreams about you  
I want to scream about you  
I'm having dreams about you  
I want to scream about you

Everything you've done  
You were the girl who seemed to own the world  
Everything was about you

I took a chance to call you my own  
I didn't know a thing about you  
I thought you could love  
What a fool I was

It was going on  
I was just singing my songs  
There was something mad about you

I took it wrong  
You liked my song  
Why couldn't I have you

A crazy dream you done me wrong  
You left me long  
I couldn't stand a chance with out you  
You said that love was dead and in my head  
I just couldn't believe it

And on the phone you said  
You never knew me at all  
You never knew me at all  
I thought there was love  
What a fool I was

And everything was in hyper-jinx  
Just like an old time movie

You don't understand  
Can't comprehend

I guess it doesn't really matter  
And every dream a nightmare  
And nothing really matters

I thought I was loved  
What a fool I was

Having dreams about you  
Having dreams about you  
Having dreams about you  
Having dreams about you
