Love Wheel

Daniel Johnston

Walk into a crowded room
I see you there and I'm hpynotized
You turn and look at me
Love wheel spinning 'round 'round 'round 'round

Can't you see baby
I'm just crazy for you
Show me your loving
Like the heaven above will do

You're the one so attractively built Ooh, the way you make me feel I look into your healing eyes

Love wheel spinn' round, round, round, round Can't you see baby I'm just crazy for you Show me your loving like the heaven above will do

Comes a time to rock the night away Holy matrimony someday Come to me from out the blue Just like a dream coe true Yes it's been my favorite wish

I take you now into my arms
Feel the pleasure of all your charms
My head is dizzy and my knees are weak

Love wheel spinn' round, 'round, 'round, round, round, round, ooh
