

Like A Song In Your Head

Daniel Schuhmacher

You and I
We came too close
Now I can see
How I was fooled
You're rid of me
You let me go
So easily
You played it cool
I know your private thinking
That it ain't all that
That we're doing good
But I got news for you
It's gonna hit you like a heart attack
You might be missing me

Even when I'm gone
I'm always there
Like a song
In your head
That just go on go on
So on so on
It's all repeat
You can't escape
And when I'm gone
I'm always there
Like a song
In your head
That just go on go on on
so on so on

You might have gotten over me
But baby look, you won't believe
I hate to beg
Don't wanna go
But I'm the one
You miss the most
I know your private thinking...
Even when I'm gone
I'm always there
Like a song in your head...
